

Fixed Issues in Archer 6.14 Patch 2 Hotfix 1

<u>Component</u>	<u>Issue</u>	<u>Description</u>
Application Builder	CE-120858	Formula editor freezes and causes the web browser to stop when trying to edit an existing Archer formula.
Bulk Operations	CE-120862	Adding an action to the schedules causes an unexpected error "500 Internal Server error".
Install/upgrade	CE-120850	Database upgrade fails on some instances with a foreign key constraint error.
